CONTENTS VOL. 75 NO. 1 1994

G. Uhl. Genital morphology and sperm storage in *Pholcus phalangioides* (Fuesslin, 1775) (Pholcidae; Araneae) 1

G. Uhl. Ultrastructure of the accessory glands in female genitalia of *Pholcus phalangioides* (Fuesslin, 1775) (Pholcidae; Araneae) 13

G. Delfino, R. Brizzi and C. Calloni. Serous cutaneous glands in the tree-frog *Hyla arborea arborea* (L.): origin, ontogenetic evolution, and possible functional implications of the secretory granule substructure 27

C. A. Byrum and E. E. Ruppert. The ultrastructure and functional morphology of a captaculum in *Graptacme calamus* (Mollusca, Scaphopoda) 37

I. Böckerman, M. Reuter and O. Timoshkin. Ultrastructural study of the central nervous system of endemic *Geocentrophora* (Prorhynchida, Platyhelminthes) from Lake Baikal 47

G. Alberti, A. I. Moreno and M. Kratzmann. The fine structure of trichobothria in moss mites with special emphasis on *Acrogalumna longipluma* (Berlese, 1904) (Oribatida, Acari, Arachnida) 57

L. A. Evans, D. J. Macey and J. Webb. Matrix heterogeneity in the radular teeth of the chiton *Acanthopleura hirtosa* 75

CONTENTS VOL. 75 NO. 2 1994

G. Melone and M. Ferraguti. The spermatozoon of *Brachionus plicatilis* (Rotifera, Monogononta) with some notes on sperm ultrastructure in Rotifera 81

F. Bonasoro and M. D. Candia Carnevali. Atypical chordoid structures in the Aristotle's lantern of regular echinoids 89

L. Manni, G. Zaniolo and P. Burighel. Ultrastructural study of oogenesis in the compound ascidian *Botryllus schlosseri* (Tunicata) 101

E. Zeiske, B. Theisen and H. Breucker. The olfactory organ of the hardhead sea catfish, *Arius felis* (L.): gross morphology and fine structure 115

P. G. Jensen, J. Moyse, J. Høeg and H. Al-Yahya. Comparative SEM studies of lattice organs: putative sensory structures on the carapace of larvae from Ascothoracida and Cirripedia (Crustacea Maxillopoda Thecostraca) 125

J. Chr. Jensen. Structure and innervation of the inner ear sensory organs in an otophysine fish, the upside-down catfish (*Synodontis nigriventris* David) 143

C. T. Bâ and B. Marchand. Ultrastructure of the spermatozoon of *Avitellina centripunctata* (Cestoda, Cyclophyllidea), a parasite of the small intestine of cattle in Senegal 161

C. T. Bâ and B. Marchand. Ultrastructure of spermiogenesis and the spermatozoon of *Mathevotaenia herpestis* (Cestoda), intestinal parasite of *Atelerix albiventris* in Senegal 167

Announcement 177

CONTENTS VOL. 75 NO. 3 1994

A. Pecio and J. Rafiński. Structure of the testes, spermatozoa and spermatozeugmata of *Mimagoniates barberi* Regan, 1907 (Teleostei: Characidae), an internally fertilizing, oviparous fish 179

M. Ndiaye, X. Mattei and Y. Siau. A new type of manchette structure in spermatids of *Culex tigripes* (Culicidae) 187

CONTENTS VOL. 75 NO. 3 1994 (Continued)

E. N. Kozloff. The structure and origin of the plasmodium of *Rhopalura ophiocomae* (Phylum Orthonectida) **191**

R. R. Melzer, H. F. Paulus and N. P. Kristensen. The larval eye of nannochoristid scorpionflies (Insecta, Mecoptera) **201**

T. C. Nag. Retinal pigment epithelium–calycal processes association in the catfish *Clarias batrachus* (Linnaeus, 1758) **209**

Y. I. Siregar. Morphology and growth of lateral line organs of the rainbow trout (*Oncorhynchus mykiss*) **213**

M. J. Grygier. Developmental patterns and hypotheses of homology in the antennules of thecostracan nauplius larvae (Crustacea) **219**

J.-Y. Sire and F. J. Meunier. The canaliculi of Williamson in holostean bone (Osteichthyes, Actinopterygii): a structural and ultrastructural study **235**

R. Muñoz-Chápuli, A. V. De Andrés and G. Dingerkus. Coronary artery anatomy and elasmobranch phylogeny **249**

D. Guinot, B. G. M. Jamieson and B. Richer de Forges. Relationship of Homolidae and Dromiidae: evidence from spermatozoal ultrastructure (Crustacea, Decapoda) **255**

M. K. Jones. Ultrastructure of the male accessory glands and sperm ducts of *Cylindrotaenia hickmani* (Cestoda, Cyclophyllidea) **269**

CONTENTS VOL. 75 NO. 4 1994

C. C. Tudge and J. L. Justine. The cytoskeletal proteins actin and tubulin in the spermatozoa of four decapod crabs (Crustacea, Decapoda) **277**

C. Iomini, M. Ferraguti, G. Melone and J.-L. Justine. Spermiogenesis in a scutariellid (Platyhelminthes) **287**

S. A. Collis and G. Walker. The morphology of the naupliar stages of *Sacculina carcini* (Crustacea: Cirripedia: Rhizocephala) **297**

D. Pringgenies and J. M. Jørgensen. Morphology of the luminous organ of the squid *Loligo duvauceli* d'Orbigny, 1839 **305**

G. S. Slyusarev. Fine structure of the female *Intoshia variabili* (Alexandrov & Sljusarev) (Mesozoa: Orthonectida) **311**

U. Welsch and I. C. Potter. Variability in the presence of elastic fibre-like structures in the ventral aorta of agnathans (hagfishes and lampreys) **323**

B. W. C. Rosser, D. M. Waldbillig, M. Wick and E. Bandman. Muscle fiber types in the pectoralis of the white pelican, a soaring bird **329**

J. T. Høeg, E. S. Karnick and A. Frølander. Scanning electron microscopy of mouth appendages in six species of barnacles (Crustacea Cirripedia Thoracica) **337**

H. C. Bjerring. The evolutionary origin and homologues of the supracochlear lamina: a contribution to our knowledge of mammalian ancestry **359**

T. S. Bridges and K. H. Woodwick. Comparative morphology and function of hepatic caeca in four enteropneusts **371**

B. A. Huber. Copulatory mechanics in the funnel-web spiders *Histopona torpida* and *Textrix denticulata* (Agelenidae, Araneae) **379**
